

FOR IMMEDIATE RELEASE

New Eagle® 83/200 kHz Dual-Search (DS) Sonar Delivers Wider and Deeper Fishfinding Affordably

Catoosa, Okla. – Eagle® Electronics, America's top-selling brand of sportfishing sonar, has unveiled new sonar models producing wider and deeper fish finding coverage with the introduction of the fullsize FishEasy® 250 DS, and the compact FishEasy® 245 DS.

Sounding at user-selectable frequencies of 200 kHz or 83 kHz, the new Eagle Dual-Search (DS) models deliver excellent target detail and separation in both shallow water, and to depths of 800 feet. With such depth versatility, both models offer optimum fish-finding performance from inland fresh water, to deeper Great Lakes, to coastal salt water applications.

All new DS models employ a compact, dual-beam Skimmer® 83/200 kHz transom-mount transducer producing coverage of up to 120° with 83 kHz, and up to 60° with 200 kHz. Easy to install, the patented, hydrodynamic Skimmer transducer design delivers sounding performance at higher speeds, and travels smoothly through the water at boat speeds up to 70 mph (61 kts).

The new FishEasy 250 DS touts a 4.5" diagonal Film SuperTwist display with 240 x 240 pixel resolution, while the FishEasy 245 DS offers a 4" diagonal Film SuperTwist display with 240 x 160 pixels in a convenient, space-saving case design. Both are rated 1,500 watts peak-to-peak power (188 watts RMS), and are packed with impressive sonar features including Advanced Signal Processing (ASP™) for hands-free operation, patented GRAYLINE®, Advanced Fish I.D.™ and FishTrack™, split screen zoom, back up memory, and more.

In addition, all models are surprisingly affordable. The fullsize FishEasy 250 DS features a suggested retail price of \$129.99. The compact FishEasy 245 DS is \$99.99, and is also offered in a complete, just-add-AA batteries Portable package that includes the Skimmer transducer with suction cup mount for \$129.99.

The FishEasy 250 DS and 245 DS are completely sealed and waterproof for harsh saltwater environments, and feature a full one-year warranty.
